3	1¾ inches	3⅜ inches	8 ounces	7.68
4	2 inches	3½ inches	10 ounces	9.72
5	2¾ inches	4¼ inches	22 ounces	21.60
6	2¾ inches	4¾ inches	24 ounces	24.36

HIDE FACED HAMMERS

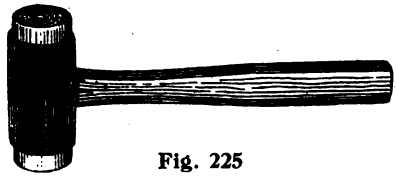

Fig. 225

Most satisfactory for machinists, engineers, brass workers, and all wishing to strike the hardest blow without injuring the most delicate surface. Where a heavy tool is required our hide-faced hammers are recommended. The construction is a malleable iron head with compressed rawhide faces. The metal part is practically indestructible, and new rawhide faces may be easily inserted.

No.	Diameter	Weight	Price Per Doz.	Extra Faces Per Doz. Pairs
0	1 inch	½ lb.	$10.80	$3.36
1	1¼ inch	1¼ lb.	12.60	3.60
2	1½ inch	1⅞ lb.	16.08	4.32
3	1¾ inch	2¼ lb.	19.20	5.52
4	2 inch	4¼ lb.	27.84	7.68
5	2¾ inch	6¼ lb.	39.96	10.92

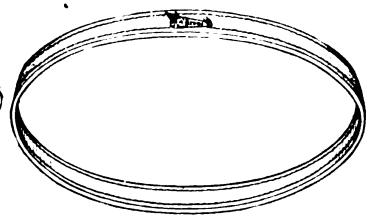
Leather Automobile Parts

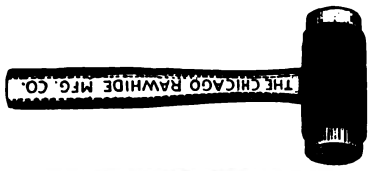
CHICAGO RAWHIDE

We are prepared to furnish any article made from leather, needed in automobile construction. Strength, durability and long-wearing qualities are the prime features of our leather specialties. CHICAGO RAWHIDE Leather, by reason of our superior tanning process, is the most perfect leather in existence from the standpoint of strength, toughness and pliability.

Fan Belts



Whether of Chicago Rawhide or "Krome" leather, our fan belts answer your purposes more satisfactorily than any other made. Impervious to heat and oil, thoroughly stretched, and of great tensile strength. Made in any way desired. Send for samples and quotations.

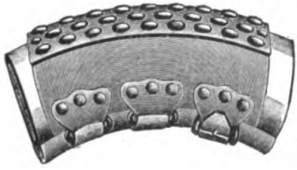


Rawhide-Faced Hammers

Their uses are unlimited. They enable the hardest blow to be struck without injuring the most delicate surface. For straightening bumped fenders, or similar work, a Rawhide-Faced Hammer is the only kind to use. It makes tire changing easy, saving battered rims.

These hammers have malleable iron heads with compressed rawhide inserts. The metal part is practically indestructible, and new rawhide faces may be easily inserted.

Dealers will find Rawhide-Faced Hammers ready sellers.



Leather Tire Boots

Made in three styles: lace-on, strap-on and hook-on. Made of the best chrome-tanned leather specially treated and waterproofed for this purpose. Lace-on style fastened to tire with regular belt lacings. Strap-on style has an extra leather reinforcement and is studded with five rows of ½" rivets. Hook-on style furnished with clincher or straight-side hooks.

Leather Joint Covers

We are equipped to make these boots and joint covers in any special shape or construction desired. We can handle large contract orders and make prompt deliveries. Samples and quotations on application.

If Made of Leather for Mechanical Purposes, We Make It
